FHS Mathematics and Statistics Part C 2017

First Notice to Candidates

This notice contains information about dissertations and penalties for late or non-submission of coursework.

Examination Regulations for the Honour School of Mathematics and Statistics are available online at <http://www.admin.ox.ac.uk/examregs/2016-17/hsomathandstat/studentview/>

The Examination Conventions for 2016-2017 can be found at

http://www.stats.ox.ac.uk/current_students/bammath/examinations

Dissertations

In Part C each candidate shall offer a dissertation on a statistics project. This project counts for three eighths of your assessment in Part C. Where projects contain a substantial amount of programming, candidates are encouraged to include key elements of their commented code in an appendix to the dissertation. This appendix will not contribute towards the word-count.

The dissertation should not exceed the equivalent of 10,000 words (excluding diagrams, tables, references and texts of computer programs). Unnecessarily lengthy projects may be penalised.

TWO COPIES of your dissertation should be handed in at the Examination Schools by the deadline of 12 noon on Monday of week 10 of Hilary Term (20 March 2017).

Dissertations may be printed double-sided. Both copies of the dissertation should be bound. Hard bindings are not required and cheaper forms of soft binding, such as thermal binding or comb binding, are in most cases perfectly adequate. Loose leaves in ring binders or held together by paper clips are not acceptable.

The copies of your dissertation should be identified by your candidate number only and should be submitted in an envelope addressed to the *Chairman of Examiners, FHS Mathematics and Statistics Part C*. Please make sure that you do not write your name or college on any part of your work, but you should put your **candidate number** on every page.

You also need to complete a Declaration of Authorship. This should be included in the envelope with the copies of your dissertation. This declaration will be removed by the Chairman of Examiners, and the assessors of your work will not be able to identify you.

In the same envelope, a **PDF version of the dissertation**, on CD or USB stick, identical to the hard copy, must also be submitted. The examiners intend that the electronic copy of your dissertation will be screened by Turnitin for plagiarism.

DEPARTMENT OF STATISTICS

I would like to remind you of the importance of avoiding plagiarism or any suspicion of plagiarism, as explained in the 'Guidance Notes' on 4th year dissertations, which can be found at

http://www.stats.ox.ac.uk/current_students/bammath/projects

Please note that it is important that both the hard copy and the electronic copy are submitted on time. You will be asked to confirm on the declaration of authorship that the work you are submitting electronically is identical in content with the hard copy.

Each dissertation will be marked independently by two examiners or assessors, one of whom will normally be your project supervisor. A USM mark in the range 0–100 will be awarded. As detailed more fully in the 'Guidance Notes', marks will be awarded in the following proportions: 25% of the marks will be attributed to content, 50% to the mathematics/statistics or data analysis/simulation, and the remaining 25% to presentation (including reference to source material).

Penalties for late or non-submission of coursework

It is important that you submit your dissertation on time. You should be aware that the formal consequence of missing the deadline for handing in your coursework is withdrawal from the examination as if you had failed to take a written paper at the appointed time. At the very least, a penalty can be imposed for late submission. See below for fuller details. You are advised to consult the Senior Tutor of your college if for good cause you are unable to meet the stipulated deadline.

Note in particular that the Proctors do not look sympathetically on requests in university examinations for late submission of project reports, theses etc. on the grounds that back-up copies of data were not made or were stolen along with a computer. If you have important data on a personal computer or removable media, then make back-up copies and keep these safe.

Late submission of Part C dissertations will normally result in the following penalties: Where permission for late submission has been granted by the Proctors, no penalty will be imposed.

Where permission for late submission has not been granted by the Proctors, the normal penalties based on a submission deadline of Monday 12 noon are as follows:

Department of Statistics
University of Oxford

www.stats.ox.ac.uk

DEPARTMENT OF
STATISTICS

Lateness	Cumulative mark penalty
Up to 4 hours, i.e. up to Monday 4pm	1
4-24 hours, i.e. up to Tues 12 noon	10
24-48 hours, i.e. up to Weds 12 noon	20
48-72 hours, i.e. up to Thurs 12 noon	30
72-96 hours, i.e. up to Fri 12 noon	40
96-101 hours, i.e. up to Fri 5pm	50

The final mark cannot be negative, it is truncated at zero if necessary.

The cumulative penalty above would be deducted from the dissertation mark, when the dissertation mark is expressed out of 100. For example, if a student submits a dissertation 20 hours late, and that dissertation in itself is worth 65 marks, then the penalty above means that s/he loses 10 marks and so the final mark is 55.

Where permission for late submission has not been granted by the Proctors and the dissertation is over 101 hours late, the Examiners would refer the case to the Proctors for guidance as to what penalty to impose.

Geoff Nicholls
Chair of Examiners

**FHS MATHEMATICS AND STATISTICS PART C
DECLARATION OF AUTHORSHIP**

Please submit the completed form with the copies of your dissertation:

Name (in capitals):

Candidate number:

College (in capitals):

Supervisor:

Title of dissertation (in capitals):

Word count:

Please tick to confirm the following:

I have read and understood the University's disciplinary regulations concerning conduct in examinations and, in particular, of the regulations on plagiarism (The University Student Handbook Section 8.8; available at <https://www.ox.ac.uk/students/academic/student-handbook>).

I have read and understood the Education Committee's information and guidance on academic good practice and plagiarism at <http://www.ox.ac.uk/students/academic/guidance/skills?wssl=1>

The dissertation I am submitting is entirely my own work except where otherwise indicated.

It has not been submitted, either partially or in full, for another qualification of this University (except where the Special Regulations for the subject permit this), or for a qualification at any other institution.

I have clearly signalled the presence of all material I have quoted from other sources, including any diagrams, charts, tables or graphs.

I have clearly indicated the presence of all paraphrased material with appropriate references.

I have acknowledged appropriately any assistance I have received in addition to that provided by my supervisor.

I have not copied from the work of any other candidate.

DEPARTMENT OF
STATISTICS

I have not used the services of any agency providing specimen, model or ghostwritten work in the preparation of this dissertation. (See also section 2.4 of Statute XI on University Discipline under which members of the University are prohibited from providing material of this nature for candidates in examinations at this University or elsewhere: <http://www.admin.ox.ac.uk/statutes/352-051a.shtml>).

I agree to my work being screened for plagiarism using the Turnitin software https://weblearn.ox.ac.uk/portal/hierarchy/skills/plag/page/about_turnitin

The dissertation I am submitting is identical in content with the electronic copy of the dissertation submitted for screening. I agree to retain an electronic version of the work until the publication of my final examination result.
